You are in it to win it

The PARADIGM Shift That Is ONPASSIVE

And The GOFOUNDERS PHENOMENON
The PARADIGM Shift That Is ONPASSIVE And The GOFOUNDERS Phenomenon

J. Morlock 2020 - Revised
FORWARD

Someone once said, "Unsuccessful people make decisions based on their current situation, while successful people make decisions based on where they want to be." Said. I said. In other words, we need a goal, a vision for our future, or at least an idea of where we want to go or what we want to achieve. Because if we don't change an undesirable direction, you can be sure that we will go there. For some of us, this can be very scary.

This book talks about the opportunity of ONPASSIVE Business Solution; about how to achieve the freedom we seek. If you are tired of fighting millions of people like me and want personal and financial freedom for you and your loved ones, you should be very careful with this opportunity. Because, whether we are internet marketing gurus or just "surfing" the internet, it doesn't matter; not anymore. ONPASSIVE is the solution because the world is changing and ONPASSIVE is keeping up with this change. This means that we can shape our future, because this new company combines technology never before seen with artificial intelligence (AI). As a result, it will immediately change all online marketing dynamics for a predictable future.
ONPASSIVEn is very real. It is an online business solution that includes dozens of "smart" products, tools and services that form the heart of Total Internet Solution (TIS).

So there is no need for worry about anything from the very beginning. You can let go of a fear of online marketing, or not knowing what you are doing, and even fraud and deceit. You should have no worries because we are 100% legit and solution guarantees your success!

And as you will learn, this means we have a business solution that ensures everyone's success regardless of who they are or what they have done before. Whether we are a Passive or Active member, we will be successful automatically!

So you can relax a little. Focus on what you read here.
ONPASSIVE: An Information Technology Company

Conceptual development of AI technology and products started long before the launch of GoFounders and has continued ever since. As the vision for ONPASSIVE continued to grow in clarity, its momentum grew. The continual development of its online marketing tools and services coalesced into a first-ever, Smart Business Solution (SBS). The SBS came to encapsulate an entire suite of products housed in ONPASSIVE’s freshly-formed, digital ecosystem which reaches into every culture on the planet. This means ONPASSIVE is primarily an Information Technology (IT) company. It’s made up of The GoFounders Community, Proprietary Technologies which include Artificial Intelligence (AI) used to form its digital-skeletal framework, conventional technologies used in development of digital tools, services, and support features resident within the system, and Its Smart Business Solution (SBS). All of which are a part of ONPASSIVE’s massive ecosystem.

The Ecosystem
As a whole, ONPASSIVE represents a first-ever Total Internet Solution (TIS) with an ecosystem of partners, applications, providers, and customers [which includes Founders] to provide our members everything they could possibly need to start, maintain, and build their businesses at one price under one roof. The TIS is supported by the four technological pillars of automation, tools, traffic, and residual income. The Smart Business Solution, SBS for short, is a part of the ecosystem. The SBS houses all the products and services ONPASSIVE has developed for use as part of its total internet solution and contains many AI-driven products and services that have been developed from the-ground-up by teams of developers. These will continue to be developed along with ONPASSIVE’s AI technologies. The arsenal of products and services available in the SBS can literally provide every tool imaginable for our subscribing customer to create or automate an online business, and more.
If our customer has a business or not, they can subscribe to as many products as needed. This means if a customer has one or more existing businesses, the SBS tools can provide complete automation for them. If a customer has no business, ONPASSIVE can allow re-seller status for the customer to create a new business using ONPASSIVE’s SBS product suite. In any case, ONPASSIVE serves to create success for everyone and seeks to “brand” the customer; not ONPASSIVE. In this way, fueled by its own machine learning technology, its Smart Business Solution (SBS) can re-group existing markets under the TIS umbrella by restructuring the process, duplicating it, and automating it through the use of its proprietary technology.

Through these we can guarantee your success though a never-before-seen, different and unique system without the need for recruiting or selling. And these products are not only available at the lowest fair-market price on the globe; they are all under one roof and superior to anything else out there. You really can’t imagine the grand scale of these tools either in number or complexity; it is mind-blowing! But you can see some of them in the slide.

Components- Components of the Smart Business Solution, and the ecosystem in general, work in concert to produce value at a level that is unavailable elsewhere, yet perpetually generated by ONPASSIVE. In short linear fashion, it goes like this: ONPASSIVE’s technology drives the development and automation of the tools and services in the smart business system. The tools and traffic provide growth through paid subscriptions that fund operations and create profit for ONPASSIVE. A portion of these profits provide residual income for our customers; our buyers and re-sellers.
We are all in it to win in! Please understand that what ONPASSIVE offers is a revolutionary, stand-alone, Total Internet Solution for Online Businesses, driven by Artificial Intelligence (AI). You got that, right? It’s a total business solution. It has been meticulously developed from the ground up using artificial intelligence (AI). It is a brand new, never-before-seen technology perfectly integrated into a complete system. It’s not a “copy-cat” or Look-alike” product. So we want futuristic, big-picture thinkers and leaders. We want to attract those leaders that show a patient, visionary mindset that can bring value and leadership to the “table”, so to speak, and thereby add value to the company as a whole.

When you employ this system, no matter where you are in your business, it can boost your efforts mid-stride immediately to get you going at a rate and direction conducive to phenomenal success. Because, and this is something to think about, if some of us don’t change our strategy or direction, we may just end up where we are headed. For some that could be scary.

The ONPASSIVE system will be capable of handling literally millions and millions of members. You need to know that. Because, with the right platform infrastructure, you can retain its core while replacing elements of the program when they become obsolete or when new tech is available. This is to say, the whole platform can remain active and cutting-edge for many years; a lifetime even. That’s how OnPassive is solidly built for the future and takes the “big picture” into consideration.
The ONPASSIVE Business and Pay Plan

Our revolutionary pay plan has been created to ensure success for its members & longevity for the company with the following criteria:

Global  
Residual  
Scalable  
Affordable  
Automated  
No withdrawal fees  
Unlimited earnings  
Instant access to payments  
(No approval required)  
Paid on every transaction
So, let’s talk more about the products and what you can expect from ONPASSIVE. In a “nutshell” our product is a first-ever, life and lifestyle changing, artificial intelligence-driven, Set-it-and-forget-it smart business solution consisting of:

- Rotators,
- Funnels,
- Landing Pages,
- Bulk Emailers,
- Email Campaign Data Cleaners,
- Contact Managers,
- Autoresponders,
- Domain Names,
- Domain Hosting,
- Site Creators,
- Webinar Hosting,
- Crowd-funding
- And much more.

“You never change things by fighting against the existing reality. To change something, build a new model that makes the old model obsolete.”

Fuller, R. Buckminster

And that is what we have done. Our online marketing system is destined to render the past standards of online marketing obsolete.
Our New Model is unique because:

1. We provide a platform to those with businesses so they become more successful. We seek to increase their abundance.

2. We provide those that have no business or success in online marketing a plug-and-play system that guarantees their success. We seek to help them obtain abundance.
We are in more than 200 Countries; a true global presence even before launch.

- We are fully legal- worldwide
- We are fully compliant- worldwide
- We are causing an online marketing paradigm shift to a new world standard
- We will not be shut down by a government; they will use our products!
Why do we need this? Compare the lists!

Internet's Current Models:
- Based on Competition & conflict
- 97% are scams
- Turn into money pits
- Requires selling
- Requires recruiting
- Tools are obtained separately
- Additional tools cost extra
- No guarantees
- Pits marketers against each other
- Pay based on own effort

ONPASSIVE's New Model:
- Based on mutual benefit
- Real business, products, & people
- Self-funding; pays you to use it
- Marketer does not sell
- Marketer does not recruit
- Every tool included
- All tools included in one low price
- 100% money-back guarantee
- Marketers do not compete
- Revolutionary pay plan
IF YOU ARE A MARKETER, (Network, Affiliate, Multi-Level, Direct Sales... whatever.) I don’t need to tell you what this means. Once we launch, you choose or use YOUR OWN DOMAIN; not the company's. It’s your business… yours… and its grown and branded for you by ONPASSIVE. And every tool you would ever need to build and be more successful at growing your own business is included.

IF YOU ARE NOT A MARKETER, this means that you will be automatically marketing the ONPASSIVE Business Solution and generating income that will grow month after month while ONPASSIVE builds your business. You will not have to recruit, sell, promote or anything else if you don’t want to… but you can earn much more if you do.

Putting the pieces together, it means we finally have a business solution that allows everyone to succeed no matter who they are or what they have done previously. Every member, whether passive or active, will succeed automatically.

So Relax.
We Help You Succeed!
Become a Founder
Before the Big launch!
ONPASSIVE’S ROOTS: A Bit About Our Boss

OK, now that we have the stuff that was probably on most of our brains out of the way, I am sure that you’re aware of the stir we’ve created by what is now the imminent launch of ONPASSIVE and its First-Line Leader Corp known as GoFounders.

If you are starting to catch the vision, I am sure you will agree that it ONPASSIVE will emerge as the new global leader in the online marketing industry. But the real heroes will be those Affiliate Marketers that use this system to build their own businesses and add value to the world. However, the company and the system have been brought to us through the efforts of its “Brainiac” CEO and Founder, Mr. Ash Mufareh.

But before you go traipsing off to some self-proclaimed internet review guru, let me say a few things about him. Mr. Mufareh is a family man, holds a Master’s of Information Technology & ecommerce (MIT) through American Intercontinental University [and even attended Harvard to learn specifically about Online Business Creation]. And from what I have seen, the online and software arenas are where he excels; that’s where he “lives”, so to speak. Have you ever been so fluent with something that you were said to take to it like a fish in water? Yeah, Mr. Mufareh is like that when it comes to the internet.
That said, he has been in several online affiliate and multi-level marketing ventures that he has done very well at. (MLM is fine, but that’s not what we are.) Most notably, I think, was his meteoric rise in Global Domains International (GDI). Prior to ONPASSIVE, he has never owned his own business.

On the other side of things, Mr. Mufareh has also seen tough times in the industry too; very tough times. As an affiliate marketer, he has suffered through lots of the same things you and I probably have. Things like platforms or systems that didn’t work or falling prey to scams. One of those times he had an entire downline consisting of thousands of members stolen right out from under him by his upline.

Anyway, with the possible exception of education, his story is just like a lot of the stories you, me, and countless others could tell. Stories about the fraud and deceit underlying much of the internet marketing businesses we have come to label as “scams” or “schemes.” I am sure we can also tell tales of personal and financial losses resulting from the activities of such encounters. Let’s face it, 97% of everything out there seems like a scam designed to keep you barely scraping by or, even worse, steal from you.

And that’s why he has started ONPASSIVE; to develop a business that everyone can wildly succeed in.
Because it’s precisely those learning experiences that have led Mr. Mufareh to the creation of this remarkable company, ONPASSIVE. And those experiences also paved the way to solidify its operating philosophies and secure them in firmly in place. I’m saying that Mr. Mufareh’s ONPASSIVE, and by extension, GoFounders, has integrity and ethics woven into the fabric of its systems and activity from the part-time help to the hardcore programmers and everywhere in between. It reflects his heart and is his way of life.

Of course, ONPASSIVE hasn’t launched yet. But it’s First-Line Leaders… myself and the rest of the Early Founders… have been very active since half way through 2018. We operate primarily from a back-office for the express purpose of inviting more Founders.

So, if you said it’s Magical, you’re right!

The features>
The fairness>
The technology>
The compensation>

And we want you as a founder.
Gofounders Net:
The back-office

The Back-Office Platform is a complete set of tools located online that was developed by ONPASSIVE specifically for its Founders; and only its Founders. (The Affiliate Members we’ll talk about in a bit, which are different from Founders, will not have access to this resource.) The back-office is a very dynamic platform that houses the powerful tools used for the GoFounders initiative which is quite simple- we invite Founder-Members [which is done through personal invites].

The back-office also provides a unique online space where Founders can socially interact with other Founders. To give you a better sense of the GoFounders lat form, let me share its purpose as listed in five general resource categories:
1. It helps automate the entry of others in the GoFounders Family until we are ready to launch.
2. It provides promotional links. These are the same links to be used in the ONPASSIVERotator and used to place leads from the Sprint-Marketing Campaign into Founder’s Teams.
3. It acts as a fundamental Contact Manager for Early Founders who choose to promote on their own and also provides access to personal and team profiles.

4. It provides an avenue for contacting Staff, Technical Support, and other Founders while providing regulation-compliant marketing materials.

5. It provides a place to access current and past announcements, webinar schedules, past recorded webinars and other events, available downloads, Tutorials, Frequently Asked Questions, and Testimonials.
Top leadership:
The Founder Position

The GoFounders effort, which continues to be wildly successful, has produced more than 100,000 worldwide members as of the end of June 2020. And these are Founder Members… first-line leaders under which all other customers will be placed!

Broadly speaking, when you accept an Early Founder Position, you’re placed in ONPASSIVE’S Top Leadership. This is the top 1% of the leaders in the company and the teams under these leaders are built literally hands-free. This is done through company-wide marketing campaigns using four or five of the world’s best/largest data exchange companies to run the campaigns. These campaigns are “fed” using proprietary databases, developed and owned by ONPASSIVE, that consist of leads incredibly targeted to specific industries. Before the public launch, the primary purpose of the existing Founders and the company campaigns are to invite other Founders. All of the Founders Positions are ranked according to:

1) the date the Position was acquired, and
2) the number of paid Founders they have personally sponsored.

So, if you are a moral & ethical leader with patience and energy, it should be no surprise that we want you in one of these positions. From here you can help the company to grow while helping others to develop healthier, wealthier lifestyles too; The same lifestyle that you are looking for by researching this opportunity. The Early Founder Position, and the campaigns that will fuel its ultimate success, constitute a significant online marketing milestone and comes with massive benefits.
Founders do NOT get paid for bringing new Founders into the GoFounders Family. Any activity by Founders to bring in new Founders is done completely through an individual desire to see the company grow and prosper through the acquisition of new leadership. This is true for production of Webinars, speaking engagements, publications [like e-books, slide presentations, etc.), videos, campaigns or emails, or any other such work or media. It’s all done by the Founder free-of-charge for the good of the whole. However, as new Founders accept invitations and are brought into the GoFounders Family, they are placed in the Teams of the Founder that invited them. That can be significant because each new Founder is a potential stream of income later for the inviting Founder.

Just prior to launch the company will run campaigns to invite new Founders to place under existing Founders. At launch the new Founder Positions cease for at least six months.* During this time ONPASSIVE'S campaign’s will be directed toward the recruitment of Affiliate Members. The new Affiliate Members are used to build all Founders’ Teams. Again, each Founder that was successfully invited [and placed in teams] by existing Founders or the company prior to launch potentially becomes a separate "leg" of financial support for an upline Founder.

* The Founders positions may not become available again anytime after launch. If they do it will be at a cost of $997.00 or higher.
The Affiliate Members brought in by the company's marketing campaigns are placed in Founder’s Teams. Put another way, Founder’s teams are populated with Affiliate Members. Currently Founder's positions are available for $97.00.

That cost gets you placed in the Founder’s spot; that’s all. It does not include entry into the matrix [as explained a little later].

- Access to exclusive founders website
- Teams built for you
- Earlier access
- Priority positioning
- Member of the inner circle
- Beta Test: Brainstorming, give feedback
- Plus much more. So ....

Expect to be impressed like never before!

THIS IS A VERY REAL OPPORTUNITY WITH VERY REAL BENEFITS
To earn commissions in ONPASSIVE, you must maintain an active subscription for each package that you purchase. There is a total of 4 different packages ($25.00, $125.00, $250.00, and $500.00). The following pages and charts will show how you progress from one package to another. As you purchase a package, you are placed in the Companywide matrix, for that particular package. The purchase of your packages can be done individually, all at once, or through an automatic process using profits from your current active packages, as they become available. In any event, all members [including the existing and subsequent Founders] start out in a free, seven-day trial period. As you may imagine, this trial provides free participation in the business for seven days. In other words, when a person wants to review our Business Solution Product, they’ll get a free 7-day trial. During that trial period they will be added to the inviting Founder’s personal team as well as the company-wide matrix. While in the matrix they’ll have the opportunity to receive spill-over-members [from the campaigns] and accumulate the resultant commissions.
However, they will not have access to those commissions until they have paid the $25 cost for the AFFILIATE package. Once they do, which is called “Activating the Level”, the accumulated commissions will be released to them. If the free trial runs out and they have not activated the next level, they will be moved to the bottom of the matrix and the original spot will become available to someone else. Advancement into each higher package is done either manually, by choosing when to activate and pay for the next higher package, or automatically, by allowing ONPASSIVE to access your profits to automatically advance you to the next higher package. If done automatically, once you have earned enough to advance to the next higher package, you will be immediately activated in the next higher package.

In the following charts, which show the structure for the different levels and their associated payouts, I will use numbers from the First through Third Levels to explain money that can be earned. (It should be apparent that the Free Member Spot is actually just how a member is held for a specified period of time without any level activation activity. Consequently, there is no Chart showing a Free Member or any activity associated with a Free Member or the 7-day trial.)
**IMPORTANT:** We need to keep in mind that it will take some time to fill the positions and that will depend on varying factors. It also depends heavily on the size, duration, and market saturation of the marketing campaigns.

**IMPORTANT:** For clarity, if a member wants to purchase the higher level packages instead of waiting to be automatically upgraded by the system, the packages must be purchased sequentially. For example, when we are ready, my intent is to purchase the first 3 packages. This means I will need to purchase the $25, the $125, and the $250 package, in sequential order, for a total of $400. If I choose to go straight to the highest package [that costs $500], I would need to purchase all 4 packages for a total of $900.
Disclaimer:
Earnings vary depending on each individual Affiliate's effort. The income claims presented are not intended to serve as a guarantee of income; instead, they are designed to give you an idea of what is possible. As with any business, success with ONPASSIVE requires hard work, commitment, leadership, and desire.

The packages are so set up.
FREE members go to the AFFILIATE $ 25.00 Package

Level 1, with 3 members has a monthly payout of $ 6.00

Level 2, with 9 members, has a monthly payout of $ 27.00

Level 3, with 27 members having a monthly payout of $ 54.00

In this example, since members are paid at current and previous levels, only a total of $ 87.00 per month is paid (6 + 27 + 54) = 87
IMPORTANT: Only The Top Three (Pro, Leader, & Master) packages offer guaranteed daily traffic.

AFFILIATE Members progress to the PRO $ 125.00 Package

Level 1, with 3 members has a monthly payout of $ 30.00

Level 2, with 9 members, has a monthly payout of $ 135.00

Level 3, with 27 members having a monthly payout of $ 189.00

In this example, since Members are paid on all 3 levels of the PRO package, the total amount earned is $ 354.00 per month; (30 + 135 + 189 = 354). However, the members also earn from the AFFILIATE package, which reflects a total monthly payout of $ 441.00 for the first 3 levels in each package. 

(6 + 27 + 54) + (30 + 135 + 189) = 441
PRO members progress to the LEADER $ 250.00 package.

Level 1, with 3 members has a monthly payout of $ 30.00

Level 2, with 9 members, has a monthly payout of $ 225.00

Level 3, with 27 members with a monthly payout of $ 270.00

In this example, since Members are paid on all 3 levels of the LEADER package, the total amount earned is $ 525.00 per month; (30 + 225 + 270 = 525).

However, the members also earn from the AFFILIATE package and the PRO package, which represents a total monthly payout of $ 996.00 for the first 3 levels in each package. 6 + 27 + 54) + (30 + 135 + 189) + (30 + 225 + 270) = 996
LEADER Members progress to the MASTER $ 500.00 Package.

Level 1, with 3 members has a monthly payout of $ 60.00

Level 2, with 9 members, has a monthly payout of $ 270.00

Level 3, with 27 members having a monthly payout of $ 405.00

In this example, since members are paid on all 3 levels of the MASTER package, the total amount earned is $ 735.00 per month; (60 + 270 + 405 = 735). However, the members also earn from the AFFILIATE package, the PRO package and the LEADER package, which represents a total monthly payout of $ 1,701.00 for the first 3 levels in each package.

\[(6 + 27 + 54) + (30 + 135 + 189) + (30 + 225 + 270) + (60 + 270 + 405) = 1701\]

NOTE: This is not the final pay plan. It is here for explanation purposes only.
Let's think about these benefits:

- A fund solution for any cause
- Immediate payment
- Unlimited residual income is paid daily
- Top marketing automation done for you
- Guaranteed visitors and sign-ups
- Breakthrough products for the automation of financial freedom

At some point prior to launch marketing campaigns will bring in more Founders and place them in the existing Early Founders’ Teams. Here's a key point that has been mentioned more than once.

(But there is also a chance we will never see the Founder buy-in opportunity again at any price.) During post-launch the company will execute campaigns to build the Founder Teams by inviting millions and millions of others to join. The resulting new members will be used to build teams under all then-existing Founders.
So, if you have friends or family that will benefit from this [and I can’t imagine anyone that wouldn’t], show them this opportunity. Sign them up now or as quickly as you can so the opportunity is not lost to them through ONPASSIVE’S launch.

You would have to agree, this business solution can provide massive advantages for building anyone’s financial portfolio. That too is by design. Keep in mind that inviting or recruiting by you is not necessary. However, it’s encouraged because it will build your wealth much faster. Think about that. As a Founder you will earn very good money. If you recruit just one Founder your income potentially doubles.

If you place Founders in your team prior to the marketing campaigns, it could allow you to achieve in months what would have taken years.
Remember, every Founder in your team becomes a potential income stream for you. If you decide that sharing this with others and inviting them to join is something you would like to do then go for it. I would even suggest that you purchase a spot for someone you care about that can’t currently afford it, if you’re able to. I have. It felt pretty good.
The future is here.
Our system effortlessly ...
Builds your team and grows your business
Provides unlimited rotators, fresh websites & destination pages
Automatically sends traffic to your sites!
Seamless reviews, converts, and joins for you

Developed using artificial intelligence

I’m sure you’ve heard of artificial intelligence; also called machine intelligence. In the field of computer science, it refers to an intelligence that’s demonstrated by machines instead of people or higher-thinking animals. Artificial Intelligence is the #1 disruptive technology currently in use. I say this because ONPASSIVE uses artificial intelligence. And ONPASSIVE wrote the very programs and owns every bit of the technology for its systems and always will; it’s patented and proprietary. I cannot say much more about the exact nature and composition of the systems you will have access to, but rest assured, they will do everything I have said they will do... and much more.

ARTIFICIAL INTELLIGENCE:
RISE OF THE MACHINES
Equally impressive is that we are 100% debt-free! Think about that for a moment. How many new, globally-operating companies are you aware of that own 100% of themselves while being completely debt-free? You can probably count them on one hand.

Additionally, our business is very "clean." This means we have real and sustainable products made up of smoothly-integrated components and never-before-seen technology that run very smoothly together.

I cannot tell you everything the ONPASSIVE Business Solution can do. (I don’t even know all that it can do.) However, if you have even a small amount of experience with online marketing of any kind then some of these terms should all be familiar to you.

With that in mind, rest assured that everything you can imagine that is needed to run an online marketing business is provided... and then some! But if these terms mean nothing to you then that's alright because the system we’re talking about does everything for you anyway so, relax. Remember the mantra, “All done for you”. You know what “All” means, right? Yep... all means all. And we mean it.
So, if you are in, or want to be in, the affiliate, network, or even multi-level marketing arenas in the future, this is your solution. ONPASSIVE can deliver to you a fully-automated, self-perpetuating, 3X Matrix-based business model. Quite simply, this means that the company will place three people directly under you and then three members under each of them, then three more members under each of them, and so on through at least ten levels [eventually]. This chart shows the first three levels.

**Self funding solution**

Your own wealth portfolio

Build any business for you

You control your money

Every useful tool you need

Never seen, proprietary technology

100% hands free

You can turn $25 into over a million ... residual income for life!
Each of these members are purchasing an automated platform for a monthly subscription fee ranging from $25.00 to $500.00. That, my friend, means a lot of people are going to be directly contributing to your income stream. And the platform they subscribe to provides every tool needed to automate their online marketing businesses which means they are getting a lot of “BANG” for their buck too. Not to mention again that ONPASSIVE is also a superior, stand-alone business that will provide massive and residual income to you and your family for life.

Start strong, and finish well!
IN CLOSING, REMEMBER: The income is residual. It will increasingly build for you month-after-month for the rest of your life. As a matter of fact, it’s inheritable; you can leave it to your friends or family… or whoever you want. But you have to decide to act on it because, as you can imagine, these Top Leadership Positions will not be available forever.

God’s Word says,

“…whatever is true, whatever is noble, whatever is right, whatever is pure, whatever is lovely, whatever is admirable—if anything is excellent or praiseworthy—think about such things.” (Philippians 4:8)

That verse is relevant here because the passage is mirrored by the philosophy that is at the core of ONPASSIVE. And when you listen to Mr. Mufareh talk, it’s his heart you hear above all else. He does not believe in negativity, back-biting, murmuring, or complaining [and doesn’t stand for that type of behaviour at ONPASSIVE from the Founders or anyone else.]. On the other hand, he does believe in family, mutual benefit, prayer, faith, speaking to your “mountains”, and especially speaking to those things that are not as if they are.

So, if you have a sincere desire to greatly succeed while helping those around you to expand, then this is for you. And if the excellent things are what you think about and seek to produce, develop, demonstrate, or manifest in your life… then you are the kind of leader we are looking for.
**Disruptive Innovation:** a process by which a product or service initially takes root in simple applications at the bottom of a market—typically by being less expensive and more accessible—and then relentlessly moves upmarket, eventually displacing established competitors. They are NOT breakthrough technologies that make good products better.

We have superior, less expensive, and more easily accessible products.

**ONPASSIVE IS DISRUPTIVE!**
A Paradigm Shift - The New Breed

You may have heard the term "unicorn" as it relates to finance. In 2013, Venture-Capatalist Aileen Lee, wrote a report about startups that were less than 10 years old and were valued at $1 billion or more by the markets, acquirers, or private investors. She called these startups, "unicorns" to denote their statistical rarity as highly successful startups were exceedingly rare! And while the rarity has diminished somewhat, there are still only a little more than 370 “unicorns” worldwide. The purpose of the report was to find similarities among the people who founded $1 billion startups, not for similarities between the startups themselves. This says a lot about these founders in terms of their long-term vision, commitment and their capability to scale from almost nothing in terms of money, product, and people, to their current unicorn company status.

With the vision and commitment of our Founder and CEO, Mr. Ash Mufareh, ONPASSIVE will quickly become a world class corporation, a "unicorn" communing daily at the table of a global economy and that is why you are here!
One of our locations, the Orlando one, is pictured here.
Don't spend any more time thinking about it; let go of fear. Don’t “perish” for lack of vision. Get the vision, get the information, and decide to join us today. This will literally change your life & your lifestyle.

Blessings and…

Thank you...
For reading about This opportunity.

YOU ARE IN IT TO WIN IT!

:You can register for free to hold a retro-active sign-up date, or you can become a Founder [prior to launch] for 97.00.
